**LEADERS IN THE MANUFACTURE
OF AEROSOLS AND CONSUMER
CHEMICALS SINCE 1830.**

www.jamesbriggs.co.uk

Founded in the North of England almost two centuries ago, James Briggs Ltd is proud to be one of Europe's largest consumer chemicals businesses today.

Our story began in 1830, at the heart of Manchester's 'Cottonopolis', and we've been evolving our technical chemicals offering ever since. In that time, we've combined our extensive technical expertise with industry-leading design to provide bespoke packaging and product decoration, bringing added value to your brand.

This unique heritage makes us your trusted supplier, consistently delivering original, safe and reliable solutions for our client base of international brands.

Today, still at home in the North of England, we have the capacity to distribute up to 150 million aerosols and 30 million litres of high performance product, every year.
